

**IN THE SPECIFICATION**

Please amend the portion of the Specification identified below to read as indicated herein.

**Paragraph beginning at page 18, line 6:**

In step 560, process 500 converts an entire file from ASCII to EBCDIC with a single "system" call that invokes codeset conversion software, such as iconv 565, and directs the output to EBCDIC output 570. Process 500 then advances to step ~~560~~ 575, from which process 500 returns to its caller.
